Coronavirus update: New contactless services to help keep you safe. I went back in and sentkn another request to get a call that the cat had sold. This is absolutely CRAZY that the price dropped because when i spoke to dealership 2 weeks ago they said the jeep had been sold. Not sure what to think but i would take my money else where People Shady!! I went to the dealer, looked at the vehicle, it needed repair. I asked her to email me when it was repaired. I still haven't heard from her. They were pleasant, helpful with info. I did not purchase the pictures did not show the rust or the dents. This was a disaster. Told the car was in great shape. Started smoking on the drive to the prepurchase mechanic. The car was leaking from the head gaskets, the turbo Nice enough salesman but overall horrid experience. Stay away. They were willing to let me test drive the car after hours. Everyone is very friendly and helpful here- it's family owned, and Mark offered me a great deal on the car I wanted! Great experience, Dealership was helpful, professional and congenial. Couldn't be happier. The sale person responded quickly we just didn't want to buy a car that had on accident. I never spoke directly to dealer, I did receive a quick emailed response that the vehicle was still available. The man was nice but the cars weren't in the best condition. There was fluid in the trunk and there was rust on a lot of the other cars. I went to go test drive this car after calling in the am. When i arrived there was a couple looking at the same car but dealer saved for me. I ended up buying a different car and i love it. I'll be recommending att auto to everyone i know. They dropped their price to sell me a car. Their awesome! The dealer contacted me promptly after I messaged him through CarGurus. I test drove the car, and a few days later he allowed me to borrow it for a whole day for a local mechanic to do a pre-purchase inspection. The vehicle checked out very nicely. I made an offer under the asking price and the process was of making the purchase was fast and friendly. All in all, a great experience. Friendly didn't try to sell. Felt comfortable with all the contacts. One of the best lot experiences I have ever had. Great low miles cars at reasonable prices. Will make you happy you went. Staff was friendly and eager to show me the vehicle. Did not try to pressure me to buy the car. The Lexus ES was fitted with several new features, with convenience and safety considerations leading the way. Standard upgrades included electro-chromatic side and rearview mirrors and mirror settings added to the list of memory functions. The interior was available in three new colors, which some additional wood trim, and child seat bracket was installed in the back. New options included high-intensity discharge headlights, an interior air filter, and a Brake Assist feature for the Vehicle Skid Control system. Minor details like tail light coloring were also changed. Over the years, the ES had been incrementally gaining power. After first appearing with a modest horses, the ES had reached by The latest bump was due to Variable Valve Timing technology. Thanks to VVT-i, the 3. While the ES had received a reputation as being a redecorated Toyota Camry, many drivers insisted that it was no longer the case. Lexus had made a considerable effort to differentiate the two cars, and by many reviewers suggested that the mission was accomplished. Those who test drove both commented that the Lexus featured finer tuned suspension, a quieter ride, and a greater abundance of luxury features. While the platform and parent company were the same, little resemblance remained. We'll help you find great deals among the millions of vehicles available nationwide on CarGurus, and we'll provide you with dealer reviews and vehicle history for each one. The most prominent feature of the ES is its aggressive snout, which juts forward with a large lower air dam and prominent fog lamps. The ES 's deep character lines along the hood and door panels work well, giving this car a distinguished appearance. This is backed up by a Lexus claim that 75 percent of its major components, including engine, transmission and interior components, are unique to the ES or other Lexus models. Last year, the ES received a more-powerful 3. It produces horsepower and foot-pounds of torque. Even more impressive is the variable valve timing system called VVT-i, capable of making 80 percent of peak torque available at 1, rpm. A four-speed automatic transmission uses computer control to adjust upshift and downshift patterns for improved responsiveness when climbing hills and enhanced engine braking when traveling down steep inclines. For example, a twist of the key fob will lower both front windows and open the power moonroof. A seven-speaker audio system with watts of amplification is standard, and a watt

Nakamichi sound system is optional. Then there's the usual array of heated mirrors, automatic climate control, way power-adjustable driver's seat, and California walnut wood throughout the interior. Front and side airbags, standard electronic traction control, daytime running lights, and three-point safety belts in all seating locations are the main safety features. It's nice to see the people at Lexus taking their entry-level car seriously. Be aware, however, that many of the options on the ES are standard on other vehicles, such as the Acura TL. Adding these features can quickly jack up the ES 's price past its competitors. Available styles include 4dr Sedan. Doing so could save you hundreds or thousands of dollars. Edmunds also provides consumer-driven dealership sales and service reviews to help you make informed decisions about what cars to buy and where to buy them. Simply research the type of car you're interested in and then select a used car from our massive database to find cheap prew-owned vehicles for sale near you. Ask most people and they'll probably tell you that car buying is the way to go. And from a financial perspective, it's true, provided you're willing to make higher monthly payments, pay off the loan in full and keep the car for a few years. Leasing, on the other hand, can be a less expensive option on a month-to-month basis. It's also good if you're someone who likes to drive a new car every three years or so. Popular searches. I am 26 years old and have already owned 15 cars and 9 motorcycles. It was a Toyota Celica and was a great car that I bought in a pinch because I wrapped my Mercury Grand Marquis around a telephone pole during a bad ice storm, had barely any money to my name, and needed something that was cheap to purchase, maintain, insure, and operate. Kinda like a FWD Miata , and that was it. I did look back however and really missed the driving experience that the Toyota gave me, and yes, even over the bimmer. I actually had someone make me an offer on the BMW of about twice what I paid for it one day while pumping gas, and given the fact that I was managing a car dealership at the time, I was under that mentality of "everything is for sale" and of course, sold it that same day. I've never liked trucks and a couple months ago, received a service truck through my current job and was informed I no longer needed a truck for work. I couldn't wait to get out of the truck and traded it almost immediately for my current car, a Lexus ES I drove many Lexus cars while working the dealership and the one thing that always blew my mind was how it simply didnt matter how many miles these cars had on them, they always look, felt, drove, and even smelled new. You take what are arguably the most reliable cars on earth Toyota and then put EXTRA attention to detail, sparing no expense to build quality. My ES has quickly become my 2nd favorite car I've owned behind the Volvo S70 and I just cannot believe at almost k miles, how pristine and perfect the car still is inside and out. Sure, it wont win any races and in fact, it's actually rather sluggish, handles alright, stops decent, but boy is it quiet and holy crap does it ride well. The stock stereo sounds great with all sorts of music, everything is easy to figure out and control, I guess the punchline of the car to me is that everything just makes sense. I changed out every single light on the outside of the car, high beams, fogs, HID's and all the rear lights, in about 45min combined with no tutorial or anything. Its a solid, great, reliable daily driver that has aged extremely well. Still looks modern and sleek and sexy even at 18 years old. Read less. Just purchased this car with , miles and short of the clunky struts and wind noise above 60 it is like driving a marshmellow dream. Decent acceleration if you can wait for it. Did I mention how awful the cupholders are - talking awful! If I can figure out how to install an audio input I will like it even more. The Lexus es is one of the best cars I've owned. After 8 years I have had no problems with it. It drives smooth and is pretty fast. The seats are comfortable and it's quiet and gets decent fuel economy. What Can You Say? It's a Lexus. There are few cars in ones lifetime that one buys that you look back and say to yourself "Why didn't I do this sooner? The ES is one of those cars. The legendary quality of a Toyota is kicked up a notch with the Lexus. Don't be fooled, this is NOT a rebadged Camry. Well, I think Lexus is getting pretty darn close to the finish line.
