You now only have to light one fuse and sit back and enjoy the show! Traditionally used at festivals or parties as a noisemaker, the fuses of dozens or even hundreds of small firecrackers like "Ladyfingers" are inserted into the weaves of the rope, causing the crackers to automatically ignite from every few seconds to minutes, depending on how many are used and how they are spaced. This is where you'll find all the fuse that isn't pretty enough to sell at full price. Like any other retailer, we at CannonFuse. The difference is that no matter how "ugly" our occasional "UGLY Fuse" is, it typically always burns the same, which, we know, is what most of you really care about! If you don't have a problem with cosmetic defects like discoloration, peeling, or sticking, you can snag a pretty good deal on some of our most popular types of fuses! The whole roll isn't bad, just a portion of it. The bottom line is that none of it is unusable or unsafe; it's just not good enough to be sold for full price. Create your own "quickmatch" with this high-quality, waterproof piping!
