Their Painless Performance Extreme Condition bulk wire is engineered to

deliver reliability and plenty of performance. It's made with a stranded-copper core and has cross-linked polyethylene insulation that offers superior abrasion resistance, yet can still stand up to degrees F and V. This wire is lightweight and easily routed and it exceeds OE specifications for underhood use. It's a lot more than circuits and wire! How often have you seen advertisements for wiring harnesses promising, circuit kit for the low, low price of? What do you get for that low price? Is that all you need, and exactly what makes up a proper wiring harness, anyhow? Well, it's a lot more than just circuits and wire. A wiring harness is, first and foremost, engineering. At Painless, all of our harnesses are designed by real engineers using the latest in diagnostic equipment and AutoCAD to ensure consistency in manufacturing and an accurate and easy installation. Finally, and certainly not least, there's quality. You deserve the assurance that after installing a harness it's going to work: That when you turn on the headlights, they shine; That the blinkers blink and that the engine starts. At right you see a Painless fuel injection harness on our exclusive test board. Every single fuel injection harness, before it goes in the box, is mounted first on a test board like this. Each blue connector simulates a particular engine function. This test ensures that all connections are working properly, all pinouts are correct and there is continuity in all the wires. If you're looking for superior quality, engineering and craftsmanship, Painless is your only sensible choice. Painless has remained the leader in automotive wiring and electrical products for over seventeen years through engineering and innovation, not corner cutting and imitation. Our items ship from various warehouses around the United States. We will ship from the warehouse closest to your location to speed up transit times. Our items typically ship within 1 business day, most often within a few hours of ordering. For this reason, we usually cannot cancel an order once it's placed. Please check with the manufacturer to verify fitment of all parts based on part number. At the moment, we only ship to select countries using this program. All associated fees will be paid upon receipt by the buyer and are not included in the auction price. Compatibility chart and application-specific wording in this listing are based specifically for USA market vehicles. Fitment is not guaranteed on international vehicles, as many manufacturers use region-specific options. Please do not add notes to your order. Our systems are automated, and the notes are not read. If you have any questions about your order, please contact us prior to ordering. Customers are responsible for verifying the legality of shipping products into their states. Orders placed for items that are restricted in the delivery state will be cancelled. We accept payment via PayPal for eBay orders. For shipments to Massachusetts addresses, we are required to collect 6. We accept returns on all new items for an eBay best period of 60 days. New items must be in original packaging including plastic wrapped items , uninstalled, and in factory new condition. Please contact us for a return authorization and shipping address. Return shipping is paid by the buyer on items that are not defective or damaged. We only sell factory new parts, no exceptions. Occasionally, an item is defective from the manufacturer, or damaged in transit. Stuff happens, but when it does, we'll take care of you. Contact us right away and we'll get you a prepaid label, schedule a pickup, and get a replacement sent right out. Returns are not accepted on international orders and the seller does not accept responsibility for damage in shipping. Be the first to write a review. Your browser does not support the video tag.
